

CLOUD SERVICES

Re-invent Business Strategy with the Power of the Cloud.

Gain Unprecedented Speed and Agility.

Cut Down Costs and Maintain Utmost Control over Business Operations.

Accomplish all these effortlessly with XTGlobal's AWS Cloud Services.

Both XTGlobal and AWS (Amazon Web Services) understand the challenges of modern businesses. We work with you to derive solutions that keep your organization moving ahead with minimal upfront capital infrastructure investment and low variable costs. From critical in-house business operations to innovative applications, you can trust XTGlobal to carve out the best Cloud-based capabilities from AWS.

THE BEST WAY TO RISE UP – THE CLOUD

Cut Costs and Pay-as-You-Use

Heavy investments in data centers, servers and infrastructure are no longer required.

Stop Guessing Games

No more working with limited capacity or handling underutilized resources. Cloud gives you the infrastructure that is exactly required for your application deployment.

Resources at Your Fingertips

Your IT team can access the required IT resources anywhere and anytime straight from the Cloud within seconds, improving their speed and agility.

Quick Global Deployment

Deploy your applications across the world effortlessly with just a few clicks.

Security and Compliance

Strong safeguards will keep all your data highly secure and private. AWS also manages the compliance for most of the cloud infrastructure.

AWS CLOUD PLATFORM – THE FINEST IN ITS CLASS

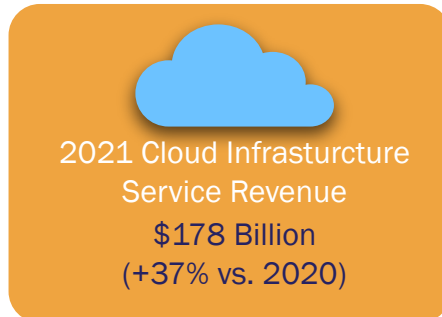

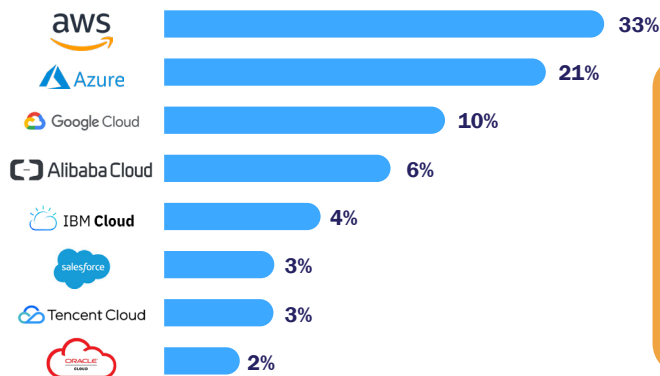

One of the top Cloud infrastructure service providers in the world, Amazon Web Services is the most adopted Cloud platform. Its comprehensiveness can make it an integral part of any organization's IT capabilities to foster innovation, speed, and agility.

XTGlobal is part of a global network of AWS-recognized partners. This partnership gives XTGlobal several unique advantages that we pass on to our customers. One of these advantages is use of AWS services to build advanced solutions and services and provide support across the full customer lifecycle.

AWS contains the building blocks that can be easily assembled to support existing or new applications quickly. We use AWS's high-performing databases, robust storage, low-cost compute, and management tools that are highly scalable for which you pay only per use.

Amazon Leads \$180-Billion Cloud Market

Worldwide market share of leading cloud infrastructure service providers in Q4 2021*

*includes platform as a service (PaaS) and infrastructure as a service (IaaS) as well as hosted private cloud services

CONFUSED WITH SO MUCH CHOICE? LET XTGLOBAL HELP YOU OUT

The AWS partnership gives us access to one of the world's most advanced Cloud ecosystems. While AWS has an exhaustive list of ready-made resources, it can get daunting for your IT team to choose the right solutions. With XTGlobal as your Cloud partner, you can be assured of:

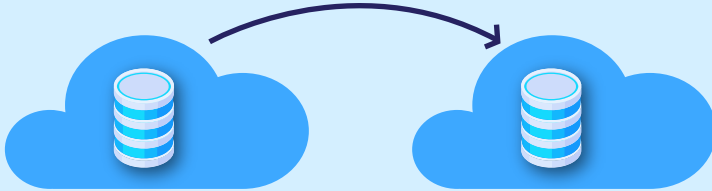

- An experienced AWS-certified DevOps team.
- Single point of contact for all AWS Cloud services.
- Cloud expertise combined with business expertise to understand and proactively handle all issues that might arise in the future.
- Complete IT management and maintenance to help you stay focused on your core business.
- Continuous optimization as per changing user expectations with predictions of changes and opportunities.
- Broad range of Cloud Computing services like Cloud Advisory and Migration, Application Modernization, Serverless Applications, and Managed AWS Services.

OUR EXPERTISE DOESN'T START AND END WITH THE CLOUD

XTGlobal's partnership with AWS gives us a unique power to create best-in-class solutions for our clients. We combine our expertise in other advanced technologies like Rapid Application Development (RAD) and Robotic Process Automation (RPA) with AWS Cloud's IaaS (Infrastructure-as-a-Service), PaaS (Platform-as-a-Service), and SaaS (Service-as-a-Service) to derive a fusion of solutions for handling every unique business need.

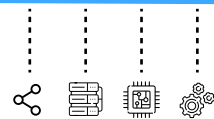

AWS - IAAS, PAAS, SAAS

Cloud Migration

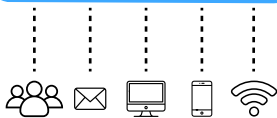

Cloud Migration is the best strategy for organizations to handle their ever-increasing demand for speed and agility. With data generation exploding, on-premise can be combined with the Cloud's immense scalability and safety.

IAAS

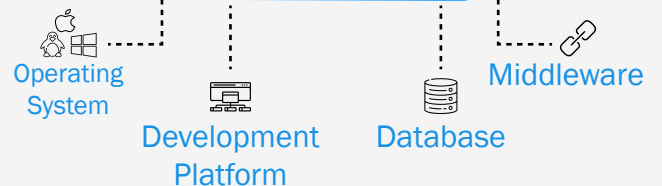

Provides the basic building blocks for Cloud IT including access to networking features, computers (virtual or on dedicated hardware), and data storage space.

SAAS

Includes the underlying infrastructure that takes care of resource procurement, capacity planning, software maintenance, patching and other functions related to running applications.

PAAS

Complete ready-to-use end-user applications and software that are managed & maintained in the Cloud without any additional investment.

CLOUD, HYBRID, OR ON-PREMISE – WE ARE THERE FOR YOU!

XTGlobal Inc.
Cloud Services

The AWS Cloud platform supports everything from infrastructure like Compute, Databases, and Storage, to emerging technologies such as IoT, ML, and AI. Combined with XTGlobal's Cloud expertise, your enterprise can now experience boundless competencies. Some of our AWS services include:

1 Cloud Advisory & Migration

- Strategy Planning
- Architectural Designing
- Deployment and testing
- Auditing
- Automation
- Training and support

2 Application Modernization

- Dev Assessing Readiness and portfolio
- Focusing on replatform / refactor / replace
- Applying patterns & solutions with time to value
- Kick off modernization into high gear
- Serverless Computing

3 Hybrid & Multi-Cloud

- Assessment
- Design
- Orchestrate
- Manage

4 AWS Managed Services

- System administration and operations (Ops)
- System monitoring, alerting, and reporting
- Performance testing and tuning
- A single point of contact for support

5 Cloud Cost Optimization

- Choose right pricing model
- Match capacity with demand
- Implement process to identify resource waste
- Tools for cost monitoring

6 DevOps Monitoring

- CI/CD
- Microservices
- Infrastructure as code
- Monitoring/Logging
- Platform as a service
- Version control

Regardless of where you are in your Cloud journey, XTGlobal is fully equipped to deal with any of your Cloud requirements. From Cloud Migration to Support, we have the expertise to handle projects of all types and sizes. With a growing team of AWS-certified experts, XTGlobal can deliver solutions both on-site and offshore at our India Delivery Centers of Excellence.
