# HCM, PPM, ERP CLOUD IMPLEMENTATION

## PROJECT AT A GLANCE

XTGlobal helped the client to go-live on time and on budget for Six different Geographies. Our HCM, PPM, ERP Consultants helped in migrating data from the legacy system as well as implementation of the HCM, PPM, ERP Cloud System.

## BACKGROUND

Mastech Digital is a major Digital Transformation IT Services company helping clients to accelerate business velocity, minimize costs, and drastically improve corporate resiliency through the application of data and analytics expertise across three key practice areas: Data Management, Data Engineering, and Data Science. This company was in need of implementing Oracle ERP Cloud for US, Amberleaf, UK, India, Ireland & Singapore. The challenge at hand was finding a partner with the necessary combination of cloud and business process expertise and QuickBooks knowledge to migrate data from QuickBooks to Oracle ERP Cloud. The migration included critical data of customers, suppliers, projects, fixed assets, project budgets, project expenditures, General Ledger, Intercompany, AP & AR invoices, AR receipts, Absence, Core HR, Payroll and Benefits.

## CHALLENGES

- 1 Meet the implementation goals with tight timelines
- 2 Achieve 100% data migration accuracy
- 3 Work Within Budget Constraints
- 4 Implementation for Six different geographies
- 5 Deliver 218+ Reports

## APPROACH

XTGlobal, using several artifacts of its cloud migration and implementation methodologies, helped the client go-live on time, with discounted cost to match client's budget. Our HCM, PPM, ERP Consultants helped in migrating data from the QuickBooks system to the Oracle Cloud System. The Oracle Cloud implementation is performed for Financials, AR, AP, and Fixed Assets, CM, GL, Expenses, Intercompany, Absence, Benefits, Core HR, PPM billing offset, Milestone Project, T&M Project, Milestone Billing and T&M Revenue business areas. Some of the key achievements include:

- ☁ On-time and under budget completion
- ☁ Oracle HCM, PPM, ERP Cloud Implementation
- ☁ Develop Custom Solution for Functional GAPs
- ☁ ERP & HCM Cloud Integration
- ☁ 100% Data Accuracy is achieved during migration
- ☁ Implement Managed File Transfer for secured file transfer in cloud

## RESULT

Engagement was successful in achieving on-time go-live and cost-efficient delivery. Liking the way we work, the client continued their relationship with XTGlobal into Cloud Support, which is a testament of our workmanship and long-term commitments with our clients.
